SUMMARY

Motivated pre-final year B.E. Electrical & Electronics Engineering student at Anna University with a strong foundation in electrical circuits, and electronics. Possessing practical knowledge in PCB designing and electronic system development. Skilled in analytical thinking, problemsolving. Eager to apply academic knowledge to real-world engineering challenges. Seeking opportunities to contribute in the electrical and electronics domain.

TOOLS

- *Autodesk*
- *Matlab*
- *Proteus*
- *VS Code*
- *Keil*
- *ArduinoIDE*

PROJECTS

SINGLE AND DOUBLE LAYER PCB LAYOUT DESIGN

Designed and developed single-layer and double-layer PCB layouts using proper routing and component placement techniques. Ensured minimal signal interference and optimized track width for efficient electrical performance.

MICROCONTROLLER-BASED CHARGER PCB DESIGN

Designed and developed a microcontroller-integrated charger PCB with efficient power regulation and control mechanisms. Focused on signal integrity, power supply decoupling, and optimized routing techniques.

EMBEDDED SYSTEM DESIGN FOR STEPPER MOTOR CONTROL WITH ADC & DAC

Integrated ADC for real-time input signal monitoring and DAC for controlled analog output generation. Implemented precise motor speed and position control through programmed logic.

EDUCATION

ANNA UNIVERSITY REGIONAL CAMPUS COIMBATORE (2023 - 2027)

CGPA 7.89

Bachelor of Engineering - Electrical & Electronics Engineering

SKILLS

- *Advanced proficiency in Python and Java*
- *Good knowledge in backend development using Python, C and C++*
- *Project management*
- *High literacy skills (writing, spelling, vocabulary)*

PARTICIPATION

- *Participated in PCB design hackathon.*
- *Attended workshop on public speaking skills and Team management.*
- *Coordinated a District level Karate tournament at Erode*

EXTRA-CURRICULAR ACTIVITIES

- *National level Kempo player (under 19)*
- *District level Kabaddi player (under 16)*
